Dear Tony,

ABBY USA, world leader in OCR technology, is extremely impressed with your team's ability to help us identify partners in China. DragonVenture's connection with China's prestigious Tsinghua University is unparalleled. I was most impressed by DragonVenture's swift identification of Tsinghua's OCR technology being the best in China and the short time frame it took your team to set up the meeting between ABBY USA and the right party at Tsinghua overseeing the OCR project.

Your most recent progress in introducing ABBY USA to SicTech of Beijing, an eGovernment powerhouse in China, was another great achievement. I see this business opportunity as one of the most promising deals for ABBY USA this year.

I hereby recognize DragonVenture as one of the best strategic partners I have ever come across. I wish you and your excellent team a ton of success in your cross-Pacific consulting venture!

Sincerely,
